Motorcyce driving laws summary throughout Europe:

There a no uniform pan-European driving laws, however please note

Don't speed

Filter in traffic carefully, with caution and courtesy

More countries than expected have banned Radar Detectors

MOTORCYCLE DRIVING LAWS	UK	Belgium	Croatia	Demnark	France	Germany	Ireland	Italy	Luxembourg	Netherlands	Norway	Portugal	Spain	Sweden	Switzerland
Lane splitting/ filtering in traffic													Note 5		
<+20kph static traffic										Note 4					
<+20kph moving traffic up to 70kph										Note 4					
Only if traffic is stationary															
Indicate before switching lanes on a motorway															
Speed Camera / Radar Detectors							Note 6			Note 6		Note 6	Note 6		Note 6
GPS Speed Camera Postion Alert							Note 6			Note 6		Note 6	Note 6		Note 6

Notes

Note 4: Lane splitting is permitted between the leftmost lane and the one beside it

Note 5: Whilst filtering through traffic is prohibited, it is tacitly permitted. NOT on the Hard Shoulder, for which you will be fined

Note 6: More countries than expected have banned Radar Detectors. Active Radar Detectors are detectable by Police which will invoke a reaction.

Passive detectors (GPS locations of cameras etc) aren't detectable, but if pulled over by Police they may require you to demonstrate that Speed Camera locations are turned OFF on your GPS/ SatNav
